

AARDI - SCHOOLGURU PARTNERSHIP UNIVERSITIES

We collaborate with nation's best Universities and become their single end-to-end provider of distance learning (ICT enabled) solutions. The most interesting and unique part of our partnership model is that, it demands no capital or intellectual investment by our partnering Universities.

We firmly believe that the online audio visual medium has the potential to bring in high quality education taught by the top educators from across the world at the doorsteps of the student. We currently are enabling Universities to help more than 1.5 lakh students in achieving their education goals.
